

WAGE President's Medal

The WAGE Executive Committee is committed to recognition of member's achievements. A President's medal has been introduced to recognise members achievements in the field.

President's medals will be awarded each year at the Annual General Meeting in October to one Consultant, one trainee and one nurse or allied healthcare professional who have made exceptional or significant contributions to Gastroenterology or Endoscopy services in Wales (at a local or national level).

Eligibility criteria to be considered include service improvement, research, and leadership. Members can propose themselves (if seconded by another member), or individuals they believe merit an award using the nomination form which will be considered by the Core Executive Team. You can nominate only one person per category.

The Core Executive Group will consider nominations against the key principles and award medals based on majority vote.

Key Principles:

- Promoting excellence
- Benefit to service
- Level of innovation
- Aligning with WAGE strategic plan
- Significant contribution to advances in the field

Please click on [this link](#) to nominate yourself or a colleague.

Yours Sincerely,

Mrs. Hayley Heard
WAGE President

Dr. John Green
WAGE Vice President
